

**Female & BAME characters - picture books** (work in progress)

**First and foremost, these books are 'a good read' for all boys & girls.** They have either female protagonists, equal numbers of females & males or no gendered characters.

After discovering that female characters were outnumbered 2:1 by males in picture and baby books (UK & USA) and that BAME children were under-represented, I began compiling this list. There has been some improvement since 2016, but male and white protagonists still predominate. Children are 'learning' that one group of people has more value than another. If children see gender and racial *equality* in their media (from birth onwards) there will be a better chance of them developing into adults who see equality as normal.

All titles are **paperback fiction**, unless otherwise stated.

Books published in the last four years have the date in **bold**.

**BAME (Black, Asian & Minority Ethnic) titles are highlighted.**

If titles are out of print, they can often be found in libraries or on line.
